Maryville, Missouri

June 22, 1960

## 109 Students Are Named To Dean's Honor Roll

Nine of the 109 NWMSC students named to the Dean's List for the spring semester maintained 3.0, or E, scholastic averages for the semester.

These top students are Ruth A. Elliott, Verdon, Neb.; Joanne N. Gadt, Rea; Marlene Hizer, Nevada; Carolyn S. Ihrig, Blockton, Ia.; Judith E. Klamm, Kansas City; John I. Knepper, Overland; Robert M. Lilley, Maitland; and Samuel J. McNaughton, Westboro.

Others listed on the honor roll are as follows:

Thomas G. Adams, Maryville; Elizabeth A. Ambrose, St. Louis; Patricia A. Bissell, Corning, Iowa; Rita M. Bregin, St. Joseph; Edna L. Burnside, St. Joseph; Maudie M. Chivington, St. Joseph; Otis D. Chubick, Nodaway, Iowa; Rosemary L. Coats, King City; Mervyn M. Copeland, Skidmore; Maurine I. Cottew, Shenandoah, Iowa; Marsha Crowell, Adel, Iowa; Carolyn M. Cummings, Bedford, Iowa; Carolina DeBow, Parkville; Marguerite D. Donaldson, Stanberry; David D. Dryer,

Maryville; Doris M. Elliott, Verdon, Nebraska; Julia M. Elmore, Kansas City; Sheila L. Elswick, Lamoni, Iowa; Norma K. Fletchall, Worth; Thelma L. Gerdes, Craig; Kenneth L. Gipple, Atlantic, Iowa; Ronald R. Guthery, Atchison, Kansas; David R. Hansen, Atlantic, Iowa; Phil H. Hayes, Maryville; Eldon C. Hildebrandt, Shelby, Iowa; Joe K. Hillers, Blockton, Iowa; Patty L. Hinkle, Bigelow, Iowa; Margaret J. Howard, Maryville; Fred L. Jackson, Barnard; Gerald S. Jones, Bethany; Linda C. Kensinger, Maryville; Roberta R. Kessler, Maryville; Sara Beth Kurtz, Oregon; Palmer Lawson, Maryville; Carol A. Lilly, St. Joseph; Donna C. Lininger, Rock Port; Vane B. Lucas, Bedford, Iowa; Marilyn S. Manley, Union Star; Nancy M. Marley, Bedford, Iowa; Robert McCoppin, Maryville; Marilyn Miller, Lake City, Iowa; Robert L. Moffitt, Braddyville, Iowa; Charles T. (Continued on Page Three)

### James Johnson Named To ALA Position

James Johnson, librarian, has been appointed a representative in Missouri for the recruiting committee of the American Library Association Division.

## Mr. Cater Teaches Reading Workshop

THE NWMSC summer reading workshop opened June 7, under the instruction of Ralph Cater, director of the reading clinic.

Thirty-one teachers from Northwest Missouri and Southwest Iowa are enrolled in the workshop. Approximately one-half of these are graduate students.

Mr. Cater states that this is not a workshop in remedial reading but is a coming together of a group of teachers to seek help on reading problems they have encountered in their classrooms. The workshop is structured to meet the needs of elementary through high school teachers.

Twenty-six hours have been allocated to individual problems. There will be individual conferences and some work in small groups. The remaining fifty hours will be used for study of developmental reading program.

Topics to be studied in the workshop include how to organize a developmental reading program, assimilated teaching of reading lessons in basal readers and textbooks used in the elementary and secondary curricula, procedures for developing vocabulary, reading material and games for assisting reluctant readers, stimulating the interest of pupils in independent reading and the procedure for using reading and study in everyday living.

## Honor Mrs. Eisenberg at Party

A surprise going-away-party was given for Mrs. Donna Eisenberg by the office secretaries, June 16, her last day as secretary to the Dean of Men. Eisenberg, has been granted a National Defense graduate fellowship which entitles him to three years study in bacteriology in Raleigh, North Carolina. They moved to Raleigh on June 20, which was the reason for Donna's leaving.

Mrs. Eisenberg is a favorite among the secretaries in the

college administration offices as well as on the campus. She has attended classes on the campus, but she has been employed in the Dean's office since June 1957.

Mr. and Mrs. Eisenberg were nouse-parents in Quad 2 but are also the real parents of a three year old son, Ryan.

Mrs. Jeanette Lasley who is married to Jack Lasley and is the mother of two children, Mike, age eight, and Heidi, age six, will replace Mrs. Eisenberg in the Dean of Men's office.

## NOTICE

All students planning to graduate at the close of the summer session must file an application for a degree in the office of the Dean of Administration immediately if they have not already done so.

R. P. Foster  
Dean of Administration

## 7 Resignations Are Accepted By College Board

Resignations from seven NWMSC faculty members have been accepted by the college board of regents, Dr. J. W. Jones, president, has announced.

Among instructors who will not be returning this fall are Dr. Charles Dills, member of the science and mathematics division; Dr. Eleanor Caldwell, chairman of the art department.

Mrs. Helen Davis, member of the art department; Robert Davis, science and mathematics department instructor; Charles Hyde, member of the social science division; Richard Hesler, member of the speech department; and Mrs. Nelson T. Grabau, supervising teacher in the home economics.

Leaves of absence for Dr. Harry Gailey, chairman of the humanities department, and Mrs. Marjorie Person, member of the business department, were approved.

## Dr. Miller to New Post In Staff Changes

Dr. Leon Miller, chairman of the department of education at NWMSC for 10 years, will become dean of instruction effective July 1.

Dr. Miller received his B.S. in education degree from Southwest Missouri State College, Springfield. His A.M. and Ph.D. degrees were received from the University of Chicago.

Before taking his position on NWMSC campus, Dr. Miller was a teacher in the Springfield, Mo., public school, director of alumni education in the University of Chicago Alumni Association and director of teacher training in the Division of Americanization and Adult Education in the Chicago Public Schools.

Dr. Miller has written articles published in "School and Community," "Adult Education Bulletin," "Missouri Schools," "North Central Association Quarterly," and "Clearing House."

Dr. Leon Miller

## Photo Exhibit Features Pictures By Dr. Charles Dills

Photographs taken by Dr. Charles Dills are currently on exhibition in the fine arts department.

This exhibition is representative of four years of Dr. Dills work.

His interest in photography develops from a study in astronomy. However, now, Dr. Dills is mainly interested in photographing things the eye cannot see because they are too small or too large, too slow or too fast. The photographs of water and milk drops included in the current exhibition are two examples of this interest.

His ultimate objective still is to make good photographs of the stars and he has recently acquired a Questar telescope for this purpose.

Of 60 photographs on display, most were photographed with either a Rolleiflex or an Alph camera.

The recent national emphasis is on photography as a fine art prompted the current exhibition. Many types of subject matter have been presented to show the artist's versatility and ability to use the photograph as a personal expression as well as a recording medium.

Dr. Dills is a member of the Science and Mathematics Division at Northwest State. He has no formal training in photography.

Dr. Miller is a member of National Education Association, Missouri State Teachers Association, American Association of University Professors, Association for Student Teaching at state and national levels, Phi Delta Kappa, Parent Teachers Association, American Legion and Lions Club.

Dr. Miller is the incoming president of the Maryville Lions Club, an elder in the Hope Lutheran Church, a member of the executive board of the Maryville American Legion, a member of the executive committee of the Missouri Association for Student Teaching, sponsor of the campus Veterans Club, one of the sponsors of the Student NEA, associate member of Tau Kappa Epsilon fraternity, and former president of NWMSC Chapter of A.A.U.P.

Among Dr. Miller's hobbies are fishing, bowling, bridge, hunting, and gardening.

He is married and the father of two daughters.

## Activity Schedule

Wednesday, June 22—  
Den Movie — GREAT EXPECTATIONS.  
Friday, June 24—  
Trip to Starlight Theatre.  
ROSE MARIE—Details to be announced.  
Friday, July 1—  
5:00 p.m. FOURTH RECESS BEGINS.  
Tuesday, July 5—  
7:30 a.m.—FOURTH RECESS ENDS—Classes Resume.  
Wednesday, July 6—  
Den Movie—THE GIRL IN THE RED VELVET SWING.  
Thursday, July 7—  
4:00 p.m.—SEMINAR — Horace Mann Auditorium.  
Saturday, July 9—  
8:30 a.m.—"GRADUATE RECORD EXAM"  
Room 207, Administration Building.  
Wednesday, July 13—  
9:50 a.m.—ENGLISH PROFICIENCY EXAMINATION—College Auditorium.  
9:15-10:15—Dean's Coffee Hour for Graduate Students—Union Lounge.  
Den Movie—THE BARBARIAN AND THE GEISHA.  
Wednesday, July 20—  
7:30-8:30 p.m. — Dancing on the Union Deck  
Friday, July 22—  
Trip to Starlight Theatre—  
THE PAJAMA GAME—  
Details to be announced.  
Thursday, July 28—  
4:00 p.m.—SEMINAR — Horace Mann Auditorium.  
Tuesday-Thursday, August 2-4  
Final Examinations.  
Thursday, August 4—8:00 P.M.  
Commencement.

## 'Great Expectations' To Be Shown Tonight

"Great Expectations," a dramatization of Charles Dickens' classic novel of the same name, will be shown at 7 p. m. tonight in the Bearcat Den. John Mills, Valerie Hobson, Jean Simmons and Francis L. Sullivan star in the movie. An informal dance will be held following the movie.

## NORTHWEST MISSOURIAN

Published weekly at the Northwest Missouri State College, Maryville, Mo., September through July, except during examination periods and after vacations.

Entered as second class matter, November 9, 1914, at the Post Office at Maryville, Mo., under the act of March 3, 1879.

## LITTLE MAN ON CAMPUS

"THANKS FOR HELPING US ON TH' TEST, LOUISE— WITH YOU IN THE OPPOSITE CORNER HE DIDN'T LOOK ONCE IN OUR DIRECTION."

"Good morning class. Today we shall discuss, quantitatively and quantitatively certain tension patterns and neuromuscular sets in regard to tonic and phasic reactions conducive to a better understanding of the adolescent mind in regard to his peers.

First, let me strongly maintain that, with due regard to Freud, the youth of today are often disenchanted with their existence, frustrated in their endeavors to attain a definite balance between the ego and the id.

Understanding the youth of today is a vital problem of our times, because so often conditions of retention development of specific modes of motivational equilibration modify the influence of response decrement. We must empathically transpose ourselves into the situation to better recognize the need for begin sympathetically inclined towards adolescent inhibition, facilitation, and motivational conditions."

English translation: Teenagers are nuts.

II. "Good afternoon ladies and gentlemen. We shall now discuss the astronomical system of coordinates on the celestial sphere. Astronomical bodies are often located by means of

(Continued on Page Four)

### Dissatisfied?

## Turn Those Ideas Into Hard Cash

Many ideas that have revolutionized U.S. industry did not come from professional inventors. Some of the greatest ideas were extracted from company suggestion boxes, resulted from accidents or were by-products of other research projects.

### Quick Freeze Cash

In 1912, for example, an American naturalist was living in Labrador, where the weather was nearly always cold enough so that meat left outside the naturalist's shack would freeze. The man noticed that meat frozen almost instantly in the 40 degree to 50 degree below zero temperatures of winter tasted much better than foods frozen in spring and fall.

Back in the states, the naturalist tried quick-freezing a whole variety of foods, launched the frozen food business and in 1929 Clarence Birdseye sold his company for \$22,000,000!

### Tin Money

Nicholas Appert is another example of a man who applied his knowledge in a new way. Appert, a Frenchman born in 1750, worked at various times as a chef, pickler, brewer, distiller and confectioner. His idea: why not pack food in containers, like wine? Voila! The idea worked, and all France hailed Appert as a national hero. Today, 150 years after Appert published word of his invention, Americans open 60,000,000 cans daily!

### The Army Turned It Down

In 1912, Englishman Harry Brearley developed a new alloy that he hoped would solve a problem that had long plagued military men. Gunpowder, in those days, had a highly corrosive effect on the steel used to make gun barrels, and the barrels quickly became pitted and virtually useless. But Brearley's alloy was so corrosion resistant it would withstand repeated assaults by the powder.

A boon to military men? No. The discovery of a new kind of powder made corrosion resistant metal unnecessary.

A good idea gone to waste? No. American industrialists thought of other applications for the alloy, stainless steel, and today there is probably not one person in America or Europe who does not benefit from Brearley's discovery.

In the kitchen, stainless is the easiest metal to clean. On cars, stainless neither rusts like plated steel nor pits and scratches like softer metals. On the farm, stainless is inval-

uable for milking equipment. Railroads use stainless to make many cars. Missile makers use stainless, too. Elevators, water coolers and surgical instruments make use of stainless. Over 650,000 tons of stainless are used by Americans in just one year!

In 1890, J. C. Fargo, president of a huge American express company, got letters of credit from Americas most distinguished bankers, then set off on a tour of Europe. In big cities, Fargo had not trouble getting credit. But off the beaten track, his letters were no more useful than wrapping paper.

"If this could happen to me," Fargo reasoned, "what a tremendous problem travelers with less credentials must have!"

Fargo's recognition of the need led to a simple solution. He had one of his employees design a paper such that a traveler could sign his name in the upper left hand corner, pay a Fargo agent the amount printed on the paper, then cash the paper anywhere in the world by signing in the lower right hand corner. The travelers' check was born, and billions of dollars worth have been sold since that time!

### Now for the Pitch:

Do these success stories offer any clues as to how good ideas can be turned into cash? Three lessons seem to emerge.

1. When something makes you really angry, it may be giving you an opportunity to create that Big Idea. Many other people may be angry at the same thing, and one key to making money is coming up with something that will solves a problem.

2. Don't be discouraged by lack of immediate success. An idea, however, brilliant, may never pay off unless it is used to accomplish something. Brearley's stainless steel, though to this day not widely used for gun barrels, is one of the world's most important metals because uses were found for it.

3. Remember that good ideas are not exclusively in the province of doubledomed intellectuals or crackpot inventors. If a naturalist could launch a new industry, if a distiller could envision canning foods—and if thousands of other men and women could revolutionize science and industry by putting their ideas to work—perhaps it would pay you to ask yourself:

"What's the big idea?"

## Class Meetings With 60-Minute Periods

FOR THE SUMMER SESSION  
(7:30, 8:40, 9:50, 11:00, 12:30, 1:40, 2:50)

### Academic Year

### Summer Session

Five-hour lecture recitation.....	Double periods daily for first two weeks, MTWTh thereafter; or 9 periods per week through first four weeks, MTWTh thereafter.
Four-hour lecture recitation .....	Double periods MTWF for first three weeks, double periods MWF thereafter.
Three-hour lecture recitation .....	Single period daily.
Two-hour lecture recitation .....	Single period MTWF for first three weeks, MWF thereafter.
Five-hour laboratory courses with three periods lecture and four periods laboratory.....	Single period daily for lecture, double period MTWF first three weeks and MWF thereafter for laboratory.
Three-hour laboratory courses with one period of lecture and four periods of laboratory.....	Two periods lecture per week first weeks and one period per week thereafter; three two-period laboratories per week first six weeks and four per week thereafter.
Three-hour laboratory courses with two periods of lecture and two periods of laboratory .....	Three periods lecture per week through first six weeks and four periods per week thereafter; two two-period laboratories per week first six weeks and one per week thereafter.
Shop, studio, skill, and activity course meeting six periods per week.....	Two periods daily.
Shop, studio, skill, and activity courses meeting five periods per week .....	Two periods MTThF and, in one week of the session, add a two-period meeting Wednesday.
Shop, studio, skill, and activity courses meeting four periods per week .....	Two periods MTWF through first three weeks, and two periods MWF thereafter.
Shop, studio, skill, and activity courses meeting three periods per week .....	Single period daily.
Shop, studio, skill, and activity courses meeting two periods per week .....	Single period MTWF through first three weeks, and single period MWF thereafter.

## Graduate Students Have Coffee Hour With Faculty

A coffee hour for graduate students and instructors in the graduate program was held in the Union Lounge, June 15, between 9:15 and 10:30. The object of the coffee hour was to give the graduate students a chance to discuss their problems with their teachers outside the classroom atmosphere.

The coffee hour was instituted as a means of two-way communication between the faculty and the graduate students. Some of the students, being unsure of their class requirements and graduate status, cannot find opportunity to discuss these and other matters of importance with members of the graduate staff. It is therefore intended that the coffee hour will provide this opportunity.

While the main purpose of this coffee hour is to bring together the graduate students and faculty, there is also a sub-purpose. This is to provide the setting for knowing other graduate students. Classroom associations differ from those which occur on a social basis.

## Library Hours

Library Hours for Summer are as follows:  
Monday-Thursday—7:30 a.m.—9 p.m.  
Friday—7:30 a.m.—5 p.m.  
Saturday—9 a.m.—5 p.m.  
This library will not close from 6 to 7 p.m.

## Third of Freshmen At Kent University Take No-credit Course

University officials at Kent, Ohio, State University reported recently that 30 per cent of the freshmen at the school lack either the ability or academic background to take college level English.

Of the 2,515 freshmen enrolled this year, 782 were assigned to remedial, non-credit English courses covering material normally completed in high school.

The reason, said Dr. Thomas F. Marshall, head of the English Department, is that Kent State must accept any graduate of an accredited Ohio high school.—Copied from the Caphaha Arrow, May 12, 1960.

## Beal Park Pool Hours

Hours of the Beal Park Pool are from one in the afternoon to nine in the evening, seven days a week, providing the weather is favorable.

## Elaine Cummings Is Selected Miss SW Iowa

Miss Elaine Cummings, a sophomore student at NWMSC, was crowned Miss Southwest Iowa at Clarinda, June 9.

The pert sophomore is a music major at NWMSC and presently is enrolled in summer school. Miss Cummings' talent entry in the contest was a piano recital.

Dr. Frank Grube, chairman of language and literature at Northwest State, participated as a judge in the event.

Mr. and Mrs. C. H. Cummings, Bedford, Ia., are parents of the new queen.

## Cater to Teach Summer Session

Ralph Cater, the director of the reading clinic, will spend five weeks, from July 25 to Aug. 25 as a visiting lecturer in the University of Colorado, Boulder.

## Students Restricted In Use of Autos

Students at Southeast Missouri State College, Cape Girardeau, with fewer than 30 credit hours and all students with less than a C average will not be permitted to use or operate motor vehicles on campus next fall, according to Clarence Dalton, chairman of the traffic committee there.

## Group from MSC To See 'Rose Marie' At Kansas City

A group of students and faculty members from NWMSC will make a trip to Starlight Theater, Kansas City, to see "Rose Marie" Friday, June 24.

"Rose Marie," a simple love story, is set in different parts of Canada. The first scenes are in Saskatchewan and the Canadian Rockies. The second act opens in a novelty shop in Quebec, after an eight-month interlude. The next scene is a glittering ball room in Chateau Frontenac, followed by a return to the mountains, the Kootenay Pass. The simplicity of the wilds, with the sophistication of society is a contrast which has made this musical play popular.

Miss Anna Maria Alberghetti, in her second Starlight appearance, starred in the production. Richard Banke was cast as Jim Kenyon. Ferdinand Hill played the part of Hawley. Dorothy Keller, singing comedienne and dancer, was Lady Jane. Danny Meehan played the part of Herman. A dancer called Jinja was cast as Wanda. A troop of Canadian Mounted Police rounded out the cast.

Some of the songs in the production are: "Rose Marie, I Love You," "Indian Love Call," "Totem Tom Tom," "The Door of My Dreams," "Song of the Mounties," and "Why Shouldn't We."

"Rose Marie" has also been made into a motion picture in which Jeannette MacDonald and Nelson Eddy played the leads.

## NWMSJC Students Make Up Large Part of Team

**BAN JOHNSON TEAM**—Members of the Comets, Maryville's Pony Express Ban Johnson League baseball team are suited up in new green and white uniforms ready for action. Players are, left to right, front row, Don Kixmiller, outfielder; Merle Lawler, catcher; Willie Van Buren, pitcher; C. T. Elliott, outfielder; and Rex Beavers, catcher.

Back row, left to right, Lloyd Logan, manager Larry Surplus, outfielder; Warren Bebo, first baseman; Phillip Pence, outfielder; Jim Dinsdale, outfielder; Jim Sanders, pitcher; Don Gallagher, third baseman; Dick Hicks, outfielder; Gary Frueh, shortstop; and Jim Lyle, second baseman.

Not pictured are Dale Cramer, coach; Gene Drake, pitcher; and Joe Hayes, shortstop.

College students make up more than half of Maryville's newly formed team in the Ban Johnson League.

Of the total 18 on the roster, five are presently attending NWMSJC. They include, Rex Beavers, Gary Frueh, Larry Surplus, Gene Drake, and Jim Lyle.

Two other players, Dick Hicks and Jim Sanders, are planning to enroll here this fall. Hicks is transferring from Southern Methodist University, and Sanders is a 1960 graduate of Maryville High.

Also on the lineup are Willard Van Buren and Don Kixmiller, both of whom graduated from college this spring.

Dale Cramer, NWMSJC student body president, is coach for the team.

This is the first season for a Maryville team in the Pony Express Ban Johnson baseball league. Other teams in the league are Albany, Rock Port and St. Joseph.

The first scheduled game, here with St. Joseph on June 12, was rained out and is tentatively rescheduled for July 19, according to Lloyd Logan, team manager.

Warren Bebo, former student, also plays with the Comets.

## The Stroller . . .

(Continued from Page Two)

declination and right ascension. The right ascension of a point on the celestial sphere is the angle at the pole between the hour circle of the point and a fixed hour circle determined by international agreement. This coordinate system is usually used in astronomy. When the observer's latitude is known, the altitude and azimuth of any star whose declination and hour angle are known can be found.

English translation: Stars is high up.

III. "Good afternoon. Yesterday we were discussing the system of coordinates on the celestial sphere. Owing to the magnitude of this particular study, much time can be spent in contemplation regarding the multitude of diversified factual information which concerns itself with this aspect of the universe.

Opinions as to exact declinations and hour angles are numerous and varied, so that often the experts are in partial disagreement about specific data which has been accumulated.

English translation: Nobody knows why stars is high up.

## 1960 MSC Summer Class Totals 898

The 1960 summer enrollment at Northwest State College officially totals 898, Dr. Robert P. Foster, dean of registration, revealed today after final figures were tabulated.

Among the 898 are 821 undergraduates and 77 graduate students, the greatest total enrollment for summer sessions in more than 20 years.

Last year there were 754 students attending mid-year classes, of which 68 were graduate students.

Foster also disclosed that candidates for degrees this summer total 147, including 12 to receive their master's, for the largest mid-year commencement in over two decades.

## 20 Football Lettermen May Return For 1960 Gridiron Season Games

With the possibility of 20 football lettermen returning this fall, NWMSJC students can look forward to seeing an experienced team in action. Fifteen of those returning will be seniors, while only two juniors and three sophomores will be coming back as lettermen.

Possible returning players include:

Kendal Adams, Osceola, Ia.  
Jack Boyd, Trenton  
Vernon Bryant, Cristobol, Canal Zone.  
Stewart Cline, Savannah.  
John Devore, Agency.  
Delbert Dubois, Gower.  
William Durham, Maryville.  
Maurice Fulton, Leon, Ia.  
Larry Holland, Kansas City  
Ron Ives, Rolfe, Ia.  
Alfred Kyle, Weston.  
Jack Lasley, Red Oak, Ia.  
Jack Mendenhall, Audubon, Ia.  
Ken Sanders, Jefferson, Ia.  
Joe Smith, Waterloo, Ia.  
Gary Taylor, Smithville.

Dorsey Templeton, Independence.

Lonnie Timmerman, Nodaway, Ia.

Billy Webb, Dorahville, Ga.  
George Weed, Orient, Ia.

The 1960 football season schedule is as follows:

Sept. 17—Bemidji (A)  
Sept. 24—Fort Hays (A)  
Oct. 1—William Jewell (H)  
Oct. 8—Pittsburgh (A)  
Oct. 15—Rolla (A)  
Oct. 22—Northeast Missouri State (H)—Homecoming  
Oct. 29—Southeast Missouri State (H)  
Nov. 5—Southwest Missouri State (A)  
Nov. 12—Central Missouri State (H)

## SUMMER BOOK EXHIBIT SLATED FOR JULY

The annual Summer Book Exhibit will be held at Northwest Missouri State College, July 11 and 12, on the first floor of the administration building.

**WE'VE BECOME MORE EFFICIENT GERM SPREADERS**

In the past we caught a relatively small number of illnesses. They were more apt to be fatal or last longer . . . but there wasn't the variety. Today, due to the automobile and larger urban areas, we expose ourselves to strangers' germs more often. Fortunately, new drugs and medications make us better equipped to fight these ailments than those of the past. For prompt, dependable service, bring your prescriptions to us.
